Bryan in West, Wilson in  
Michigan and John-

Colonel Roosevelt reached Denver toward the close of his day's campaign in Colorado. He was met by a large crowd at the station, and headed a parade through the city. Several fire engines and trucks which were brought here for the annual convention of the International Association

# GOVERNOR SPRY URGES MINERS TO PRESERVE ORDER

Greek Strikers Leave Fortifications But May Return Today

## MOYER URGES PEACE

Conference of Parties to Trouble to Discuss Arbitration

BINGHAM, Utah, Sept. 19. — The strike of the forty-five hundred miners here is no nearer settlement to night than when the men walked out yesterday morning. A visit of Governor Spry to the camp and his address to the strikers had a quieting effect and the disturbances of last night have not been repeated. The Greeks abandoned their fortifications to listen to the governor's speech and so far have not returned to work. It is said tonight, however, that they will again take up their position behind the breast works tomorrow morning. It is the plan of the forces of deputy sheriffs now on duty to prevent this.

Other than an unusually large crowd of idle men on the streets, the situation here is peaceful and quiet.

Charles H. Moyer, president of the Western Federation of Miners, has cautioned the strikers that destruction of property will not be tolerated by the union and he has advised the men that he will expel any member found guilty of committing unlawful acts.

SALT LAKE CITY, Sept. 19.—The

## "MY BABY SUFFERS SO"

ANXIOUS MOTHERS WORRIED ABOUT CHILDREN'S ECZEMA.

Try this Remedy at Our Risk.

Mother's are driven almost frantic with pity and anxiety over the skin trouble of children with eczema or some other torturing rash.

So often we are asked what will give relief that we want every one to know about our new remedy, Saxo Salve, for all sorts of skin diseases, which is performing remarkable cures among children as well as grown persons.

Right at the start this soothing penetrating application allays the frightful itching and burning. And as it sinks into the skin it destroys the germs and starts the powerful healing influence most thoroughly.

You cannot do better than to try Saxo Salve for eczema, tetter, ringworm or any crusty or scaly skin trouble. We give back your money if Saxo Salve does not satisfy you. Monroe Drug Co., Fresno, Cal.

appearance of Governor William Spry and the state board of labor conciliation and arbitration as factors in the strike situation at Bingham, Utah, where between four and five thousand miners are in virtual control of the mining properties, the most encouraging feature of the day.

Developments indicative of trouble were the theft of more than five thousand pounds of high power dynamite from the Utah Construction Company's stores at Bingham, the inability of the conservative leaders to control a certain element of the strikers and the proposed service of the warrants on a number of strikers responsible for the shooting and intimidation at the copper camp. The Greek miners, entrenched on the mountain commanding the works of the Utah Copper Company, left their fortress shortly before the arrival of the governor and his peace party this afternoon and joined the audience which listened to an address by the executive and others, but an interpreter was quoted as declaring that the desertion was only temporary and the fortress would be re-occupied as soon as the governor had gone.

Governor Spry's trip to Bingham was the sequence of a long conference between state officials, the county sheriff, the commander of the state militia and representatives of the miners and mining companies.

Deputy reports from Bingham told of firing upon mine officials who attempted to reach or leave their properties and who had been ordered to clear the roads for the scene of the trouble.

Reports made by Assistant General Wedgewood of the Utah National Guard had indicated that in an emergency four hundred men and a battery of artillery could be mustered for strike duty within eight hours.

Speeches of the governor's start flashed ahead to Bingham, caused the postponement of re-organization made by Chief Deputy Sheriff Axel Steele for a flank attack on the miners' encampments.

PARTY TO CONFERENCE.

The party which reached Bingham with the governor consisted of Chief Justice Frank of the Supreme Court, Attorney General Barnes and John Dorn, members of the constitution board; General Wedgewood, N. P. Stathakos, a well known Greek banker of Salt Lake, a priest of the Greek Catholic church, Warden A. Pratt of the state penitentiary, Charles H. Moyer, president of the Western Federation of Miners, and W. Perseus, U. S. S., detailed as instructor to the National Guard.

Strikers and citizens thronged about the party and there was no difficulty in collecting an audience for Governor Spry, who was the first speaker. He assured the miners that their right to quiet work was unquestionable and they warned them not to interfere with property or violate the law. Stathakos and the Rev. Lambriges then addressed the Greek members of the crowd in their own tongue.

The governor was joined by Moyer and General Wedgewood and retired to a boarding house where a discussion of the situation was resumed. The arguments of the officials were for time in which to arrange arbitration. After the conference Governor Spry made this statement:

"The sheriff is in full charge of the situation and I am confident that he will manage matters. The county commissioners have promised to give Sheriff Sharp sufficient deputies to take care of conditions. We do not intend to have company property molested or the lives of citizens endangered. No far there has been no thought of calling out the militia and our action would not be taken as a last resort. This is all I can say about the matter at this time."

## Praise This Remedy For Consumption

If the voluntarily written words of grateful people, living in all parts of the country, praising Eckman's Alternative, a remedy for the treatment of coughs, colds, throat and lung troubles, are to be believed, this medicine is certainly doing a vast amount of good for such sufferers. We state none but facts and give to you the names and words of praise of those who declare it benefited them—in many cases coupled with the writers' statements that it restored them to health. This is a sample taken from many:

St. Mary's Academy, O'Neill, Nebraska.

"Gentlemen: About seven years ago, I was attacked with the dreaded disease, Tuberculosis. I coughed incessantly, could not sleep, nor eat, even could not breathe out loud and could do no work. I had three hemorrhages, raised blood most of the time and suffered with night sweats, fever and chills. A specialist at Columbus, Ohio, pronounced my case hopeless.

"Nearly five years ago, I heard of your Alternative and procured some at once, with the result that I soon found myself restored to health. For the past four years I have been able to continue my teaching and though I have always had heavy school work, I am also able to perform much manual labor. I consider your medicine, if faithfully taken, a most excellent remedy for consumption. Mother Superior permits this testimonial."

(Signed) SISTER MARIE, Sisters of St. Francis, in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in building the system. Does not contain poisons, opiates or habit-forming drugs. For sale by leading druggists. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

## Mail Order Wines For Your Table

Continued from Page 1

of the Engineers were in the period of the changing of belts and whistling of horns almost defeated the efforts of the band to be heard.

The Clinton first speaker of the day was delivered at 1 o'clock at Trinidad, where he recalled to Woodrow Wilson's efforts of the Progressive party's proposals in regard to the trust question. Then he went on to La Junta, Rocky Ford, Pueblo, Colorado Springs and Denver.

After tonight's address, Colonel Roosevelt left for Nebraska.

## TARIFF QUESTION

SA. JUNCTA, Sept. 19. — The Democratic tariff program is adopted. It will raise every honest man engaged in raising sugar beets," declared Colonel Roosevelt here today. "The Democratic platform says the tariff is unconstitutional, while Mr. Wilson has called the tariff a malignant growth, which he, as a surgeon would cut out of the body politic."

Roosevelt said the Democratic House of Representatives treated the sugar industry of the United States as a malignant growth in passing a bill abolishing the protective tariff on sugar.

"This bill," he said, "illustrates what you would have to fear if the Democrats come into power."

Explaining the various theories of protection as exemplified in the sugar schedule, he said:

"The Republican schedule was adopted to suit the sugar trust. The Democrats propose to remove what is malignant in protecting sugar by action that would ruin every honest man engaged in raising sugar beets here and sugar cane in Louisiana."

"The Progressive position is shown in the bill of Senator Bristow of Kansas. This bill reduces the tariff, but leaves sufficient duty to protect men engaged in growing sugar beets and cane."

## RIGHT ON TICKET

LINCOLN, Neb., 19.—Secretary of State Wainwright today that the Progressive party in Nebraska is entitled to have the names of its candidates on the ballot at the general election. An objection had been filed by A. M. Morrissey, candidate for attorney general on the regular ticket. The allegation was based upon the fraudulent nature of many of the signatures on the petition of the Progressive party.

## DENIED A NAME

CAIRO, Nev., Sept. 19.—If an opinion rendered today by Attorney-General Baker is sustained by the State Supreme Court, Nevada Progressive presidential electors must go on the November ballot as "Independents," and will not be allowed to assume a party designation.

Attorney-General Baker gave it as his opinion that this rule must apply to all Progressive candidates for office, and that all petitions must be changed, the candidates appearing as Independent.

No fee will be exacted as in the case of the regular party nominees had been attorney-general. He expressed the belief that a mandamus case immediately would take the matter before the Supreme Court.

## BRYAN AT HELENA

HELENA, Sept. 19.—Upon the same platform from which Theodore Roosevelt spoke two weeks ago to the first Montana Progressive state convention, William J. Bryan challenged the progressiveness of Colonel Roosevelt to-night and declared that at best Roosevelt was but an elevated house convert to the cause of progress, joining only when it was apparent that the Progressive cause was sweeping the country.

Colonel Bryan was greeted by a large audience. In his address he called the roll of reforms for which he declared the Progressive Democrats had been fighting for years and wanted to know where Roosevelt, when he was President, stood on these questions. He declared that never once, during his seven years' occupancy of the White House, had Colonel Roosevelt aided in the fight which Senator La Follette, at first the lone progressive in his party, was making for the reactionary interests, "which controlled Congress and controlled the White House during the Roosevelt administrations."

Colonel Bryan's special train, on which he came from Butte, was late, but the big audience waited patiently and accorded him an enthusiastic greeting.

## LAST OF CONVENTIONS

Bryan spoke earnestly in support of the Democratic candidates for Congress who would support a Democratic President.

"We have the House at this time," he said, "and it is highly probable that we will elect a President and that we also will maintain our control of the House, but we must not overlook the Senate."

Bryan told of the Republican and Democratic national conventions, declaring that while these two conventions were entirely different, they were

## CRUSHED UNDER LOAD OF PIPE

(Special to the Republican.)  
BAKERSFIELD, Sept. 19.—Porter Peck, aged 35 years and manager of the California Pipe Works, was crushed and instantly killed by a carload of six inch pipe which fell upon him as he and other employees were unloading it from a car. A chain which should have held the pipe slipped.

## ARSON ATTEMPTED; SHOTS ARE FIRED

CHARLESTON, W. Va., Sept. 19. — Members of the national guard on strike duty late tonight fired on several men

the greatest conventions ever held and were in all probability the most important national conventions since the next presidential election. The presidential primary system will be adopted, while the House of Representatives will have passed a bill authorizing the construction of a new national building at Washington, D. C.

His first speech was made at the afternoon session at the Bingham camp, platform speaker, he made at half a dozen smaller meetings.

## BOURNE AS INDEPENDENT

SA. JUNCTA, Sept. 19.—Theodore Roosevelt is for an independent party, he declared today, in a speech made at the Bingham camp, platform speaker, he made at half a dozen smaller meetings.

## KANSAS TANGLE

TOPEKA, Sept. 19.—Theodore Roosevelt is for an independent party, he declared today, in a speech made at the Bingham camp, platform speaker, he made at half a dozen smaller meetings.

Attorney representing the Roosevelt electoral candidates said tonight that he was in their project of bringing action against Secretary of State Wainwright to enjoin him from taking the names of Taft and Sherman at the head of the Republican ticket. The attorneys held that the duty of electors is to follow the expressed will of the majority of the party voters and that the bringing of an injunction suit such as proposed should be done only by the chairman of the Republican state committee.

Chairman Dudley said he would not bring such action. Secretary Sessions today certified the names of Taft and Sherman to go on the Republican ticket.

Indications now are that unless the Roosevelt electoral candidates are declared illegal by the United States Supreme Court, they will go on the Republican ballot under the names of Taft and Sherman.

## LINCOLN A DEMOCRAT

SPRINGFIELD, Ill., Sept. 19.—Here in the early home of Abraham Lincoln, Governor Thomas L. Marshall of Indiana, Democratic vice-presidential candidate, in his speech tonight said the martyred President was a Democrat at heart.

Governor Marshall arrived here tonight after a trip through Missouri during which he departed from his rule of not making "rear platform" speeches. He made a short talk at Farmersville, where a large number of farmers had waited to hear him.

Governor Marshall ended his first campaign tour here. Next week he will make speeches at South Bend, Ind., and Grand Rapids, Mich.

## CHAFIN KNOCKS

WILMINGTON, Del., Sept. 19.—Eugene W. Chafin, prohibition candidate for President, said in his speech here yesterday that he had heard reports that he had "gone over to Roosevelt."

"That's not true," he declared. "I am a real Progressive, not a humbug trying to paddle into office on a sea of shaky not constructed of constructed bad plans and beer legs. Mr. Roosevelt, standing for some good things, is standing for some bad things. He is likewise standing for a lot of things the ordinary man does not expect at all. Anyone who knows his record in the past, his record in the present, his high tariff and reactionary leadership will not be fooled by his sudden out-of-office conversation to sundry popular measures."

## ULSTER COVENANT IS GIVEN FORM

North of Ireland Men to Pledge Themselves Against Home Rule

BELFAST, Ireland, Sept. 19.—Sir Edward Carson, ex-collector general for Ireland, will submit for the approval of the Ulster Unionist council the wording of the covenant which Ulster Unionists throughout the province will sign September 23rd. The covenant will be as follows:

"Being convinced that Home Rule would be destructive to the material well being of Ulster, as well as to the whole of Ireland, subversive to our civil and religious freedom, destructive to our citizenship and perilous to the unity of the empire, we whose names are subscribed hereunder, men of Ulster, loyal subjects of His gracious majesty, King George V., humbly relying on God in whom our fathers in days of stress and trial confidently trusted, hereby pledge ourselves in solemn covenant throughout this, our time of threatened calamity, to stand by one another in defending for ourselves and for our children our cherished position of equal citizenship in the United Kingdom; and in using all means which may be found necessary to defeat the present conspiracy to set up Home Rule in Ireland; and in the event of such parliament being forced upon us, we solemnly and mutually pledge ourselves to refuse to recognize its authority in the sure confidence that God will defend the right."

A covenant similar in tenor has been prepared for signature by the Ulster women.

## SAVING ELEPHANTS FROM DESTRUCTION

LONDON, Sept. 19.—The chase after the American elephant hunter Rogers in the Lado Enclave in Central Africa has brought into prominence the quiet work which is being done there to prevent the extinction of the biggest living land animal.

## ALLOW LEEWAY FOR TESTIMONY TAKEN IN PATENT CASE FILING EXPENSE ACCOUNTS

County Clerk and Secretary  
of State Say Primary  
Law Indefinite

L. J. Mitchell Files His  
Statement After Time  
Specified

Although the state primary law provides that all statements of campaign expenses must be filed within fifteen days after the primary election, L. J. Mitchell, county clerk, yesterday permitted the filing of a statement of expenses for the primary election of 1912, filed by J. H. Myers, a candidate for supervisor from the fifth district, to be filed, and will place his name on the ballot, unless enjoined.

The policy pursued by Mitchell, is the subject of a hearing before the county clerk, yesterday, by Frank C. Jordan, secretary of state, according to a statement from that office yesterday. Two cases in particular, were mentioned by the secretary of state, namely that of "Constitutional Rights of Los Angeles" and "State of Riverside." In these cases the secretary of state will allow a day or two for filing, and the names will go on the ballot, unless he is enjoined. The idea expressed there was that the people named a right to vote and that they should not be deprived of that right.

Both the secretary of state and Jordan are allowing leeway in the filing of expense accounts, because Mitchell is of the opinion that the law is indefinite in this respect.

Section 20 of the primary act reads as follows:

"Every person who shall be a candidate for nomination to any elective office, including that of United States senator in congress, shall make, in duplicate, within fifteen days after the primary election a verified statement, setting forth each and every sum of money contributed, disbursed, expended or promised by him, etc."

The closing paragraph of the section reads as follows:

"No officer shall issue any certificate of nomination to any person until such statement, as hereinafore provided, has been filed."

Burnell reads the law as forbidding the name of any nominee appearing on the ballot until the statement is filed, and that the fifteen day limit is only a suggestion for the sake of uniformity.

The only candidates that have not filed their statements are E. F. Gilman of Clovis, candidate for supervisor from the second district, and Walter Clifford, socialist candidate for the assembly from the second district, although Clifford may have filed with the secretary of state.

W. A. Sullivan, W. H. Kerr of Coalinga and W. E. Chandler each sent \$10 to the assembly nominee, Henry Dawson spent \$14.

## The Refinement of The Chickering

"Why is it when the new Chickering is mentioned in discussing pianos, it awakens the same feeling as the mention of the name Michael Angelo in painting and Robert Burns in poetry?"

It is because we scarcely dare to look beyond the artistic works achieved by these men of genius.

The only hope of others is that they may merely approach the greatness of these.

The attempts of all other piano builders to merely approximate the perfection of the Chickering in its greatest achievement.

When you place the Chickering piano in your home it makes that home one of culture and refinement.

## Government Seeks to Oust Two From Land in Vicinity of Huron

Hearing was begun yesterday before Judge W. H. Hoffman in the county court at Huron, in a case brought by the government to oust two persons from land in the vicinity of Huron. The land is owned by the government and the two persons are the defendants. The hearing was held in the federal court room and the government was represented by Assistant U. S. Attorney J. H. Morgan, while the defendants were represented by W. A. Sullivan and C. H. Linderholm of Idaho.

Previous contests in the land, had been won by the present occupants, the land, however, in that department being given by the government to the defendants. The land is situated in the vicinity of Huron and the government is seeking to oust the two persons from the land.

Witnesses put up by the government yesterday were for the purpose of showing that the land was given to the defendants by the government. The witnesses were J. H. Morgan and J. H. Hoffman. The witnesses were put up by the government and the defendants were represented by W. A. Sullivan and C. H. Linderholm.

## NEEDHAM ARRANGES KING'S CO. DATES

Is Expected to Arrange for  
His Itinerary in This  
County Today

Congressman J. C. Needham made a hurried visit yesterday to Hanford and Coalinga, arranging dates for his speaking tour. He met with the executive committee of the Republican central committee of King's county, in Hanford, where dates were made for his speaking tour. Needham also announced that he would speak in Hanford during the county election in Coalinga on the 12th of October. His itinerary for King's county is as follows: Coalinga, October 10, Los Angeles, October 11, and Hanford, November 1. The congressman will travel by automobile and make speeches at smaller towns from the machine.

## BOOTH'S PRIDE IN OXFORD DEGREE

LONDON, Sept. 17.—With the death of General Booth many stories of the great religious leader are being told. Among his most engaging weakness was his pride in the D. C. L. degree conferred on him by the University of Oxford. When it was conferred there was a complete absence of the undergraduate homogeneity and rousing which usually distinguished such a gathering. This was very striking, especially in view of the fact that the degree was conferred on many prominent members of the university.

When General Booth left the university after the ceremony he insisted on wearing his academic robes in the train.

## J. B. MYERS EXPIRES AFTER AN ILLNESS OF 3 MONTHS 45 MINUTES HERE

End Comes at Seabright on  
the Coast; Remains to  
Be Brought Here

Served Eight Years as City  
Trustee; Ran for Mayor  
on Anti-Saloon Issue

J. B. MYERS.  
Former City Trustee, Who Died at Seabright, Calif., yesterday morning.

J. B. Myers, for eight years a prominent member of the board of trustees of Fresno, died yesterday morning at Seabright, Calif., after an illness of three months. Death was due to a number of small abscesses on the liver, an affliction from which he had suffered for several years. Recently an abscess enveloped nearly half of the liver, and his condition was critical for several days before his death.

The deceased was a pioneer resident of this city, he and his family coming here in 1855. He was 85 years of age and a native of Rochester, New York. His early life was devoted to farming near Marshalltown, Iowa, where his parents lived from 1832 to 1879. Myers helped his folks on the Iowa farm but when the Civil War broke out he joined one of the state regiments and fought through the campaign against the South. In 1875, he moved to Aurora, Nebraska, where he engaged in the meat business until 1880, when he came to Fresno. He had made his home in Fresno since that date.

For fourteen years he was a foreman in a local packing house and later entered the insurance business. Myers figured prominently in municipal politics. He ran for city trustee twice and for mayor once. Under L. O. Stephens, the first mayor of Fresno, Myers was elected trustee and served four years. He was re-elected at the time W. Parker Lyon defeated Stephens and Lechard and served another term of four years. Three and a half years ago he was a candidate for mayor against the late Dr. Chester Rowell, Jeff D. Statham and W. H. Toomey. In this campaign, Myers made his fight for the office on the anti-saloon ticket.

He again entered the insurance business but ill health forced him to retire late last spring and as the warm weather came on and his condition showed no chance for the better he and his wife moved to Seabright, near Santa Cruz, in an effort to regain his health. Gradually his strength left him and as the abscesses of the liver grew larger he was forced to take to his bed. For the past month, he had been too weak to take any exercise.

Death came at 7 o'clock yesterday morning with Mrs. Myers at his bedside. The scene was telegraphed here to E. W. Redman, a great nephew, and J. E. Ragsdale, a friend of the family. The body will arrive in Fresno tonight and is to be taken in charge by Stephens and Brann. Funeral services will be held tomorrow morning under the auspices of the A. R. C. M. in the new building in Mountain View cemetery. Realizing that the end was near, Myers made all arrangements for his funeral several days ago.

He is survived by the widow, a brother, Frank Myers of South Dakota, and W. H. Redman, a great nephew, of this city. His son, Roy, died in Fresno about nine years ago.

## Easy to Get Relief From Indigestion

Your stomach should digest the food you eat, without the aid of any artificial digestion. If it does not, then you are continually subject to dyspepsia, indigestion, heartburn, headaches and constipation.

Instead of taking digestive medicines, take steps to get your stomach and intestines again in a healthy, natural condition. Jayne's Tonic Vermifuge will do this for you if you take it regularly. It is not a digester of foods, but it will restore your stomach and intestines so that they will attend to their natural functions, digesting what you eat and giving strength to the body.

For more than eighty years thousands of men and women who had suffered the pains caused by dyspepsia and indigestion have been praising this Tonic as the only remedy which brought them permanent relief. As the Tonic acts directly upon the stomach and intestines, it is a natural appetizer and strength builder.

Many forms of supposed indigestion are the result of intestinal parasites, for which Jayne's Tonic Vermifuge is unsurpassed. Inlet upon Jayne's; accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

## Will Deliver His Address in Courthouse Park Tues. day Morning

Following a conference with the county central committee, and the city of Fresno, the address of the county of Fresno, will be delivered at the courthouse park Tuesday morning.

The address will be delivered at the courthouse park Tuesday morning. The address will be delivered at the courthouse park Tuesday morning.

A conference was then arranged with the county of Fresno, and the city of Fresno, and the address will be delivered at the courthouse park Tuesday morning.

## CORNERSTONE OF NEW CHURCH TO BE LAID

Dr. Conley to Speak Monday  
at Second Baptist  
Ceremonies

The corner stone of the new Second Baptist church at F and Merced streets, which has been five years in the building, will be laid with appropriate ceremony on Monday afternoon. Dr. J. W. Conley of the First Baptist church will deliver the address of the day.

The rally which has been held by the colored population for the completion of their church for the past 45 days will come to a close Sunday night and its ending will be celebrated in the basement of the unfinished church. The rally of the church was completed yesterday and the whole building should be ready for services by the 15th of October.

The church, which is 60 feet in length, 35 feet in width and 22 feet high, was begun five years ago under the leadership of Rev. J. H. Morgan, the pastor of the church. The project was given up when the foundations were laid and nothing was done until this year. Last January Rev. John Saunders accepted the work of finishing the church under the appointment of the Home Mission Society of New York. The church was then completed and the walls are now in place and the completion of the church is only a matter of a month.

Monday afternoon at 3:30, the corner stone laying exercises will begin. The exercises will be a concert of local funds during the program. Dr. J. W. Conley of the First Baptist church will be the principal speaker while Mr. H. E. Wilkinson, moderator of the San Joaquin Valley association will preside.

The program for the occasion will be as follows:

Band selection.  
Invocation—Rev. J. H. Morgan, ex-pastor.  
Scripture—Rev. G. W. Ayres, Missionary of General Baptist Association.  
Band selection.

Invocation—Rev. J. W. Conley, of the First Baptist church.  
Report on behalf of the Church and State Convention—Mr. H. E. Wilkinson, moderator.  
Band selection.

Statement of the Contents of the Book—Rev. J. W. Conley, Church Clerk.  
Laying of the Corner Stone—Pastor John Saunders and Trustee Joshua Mills.

Prayer—Rev. W. H. Barker, pastor at large.  
Hymn—"How Firm a Foundation," Choir and Congregation.  
 Benediction—Rev. A. D. Smith.

## F. H. S. SENATE TO OPEN THIS EVENING

Initial Meeting of Term Will  
Probably Be Well  
Attended

The first meeting of the Fresno High School Senate for the year 1912-1913 will be held this evening at the Senate rooms in the high school building. Over fifty or more senators, both active and honorary, will probably be present at the initial meeting tonight.

None of the honorees who do not pretend to be regular visitors to the F. H. S. Senate make a practice of appearing at least once a semester, usually at the opening meeting. Members of the Senate, which has been established over a quarter of a century, are to be found in every part of the San Joaquin valley and in many distant states.

In the absence of George Kemper, president of the Senate, who has taken our homeward journey, George Hopkins, vice president, will preside at tonight's meeting. Nominations will be made at this time for officers in that body during the ensuing term. The election will follow next Friday night. The roll will be called at 8 o'clock.

## DOCUMENT RELIC OF GREAT REBELLION

LONDON, Sept. 17.—A warrant issued in 1850 by John Bradshaw, president of the court which passed the death penalty on King Charles I, was recently found hidden in a book in the South African Public Library at Cape Town. The librarian was removing the picture from its frame when the old parchment document, which had been placed between the binding and the back of the picture, was discovered.

It is a warrant to Sir John Wolton to pay to one Thomas Throgmorton the sum of £100 for certain supplies to the Parliamentary army in Scotland. Throgmorton's receipt is indorsed on the back of the warrant, which is signed by Bradshaw in his capacity as president of the Council of State by the authority of Parliament.

## REAL WOMAN FARMER IN PENNSYLVANIA

Mrs. Annie Berger Harvests  
Crops and Does All Work  
of Agriculturist

READING, Pa., Sept. 17.—Mrs. Annie Berger, wife of Thomas C. Berger, an up-to-date and wealthy farmer of Berks county, is perhaps the only real woman agriculturist in Berks. Mrs. Berger's power of endurance is wonderful; her knowledge of farming is of a scientific kind, and her skill is equal to that of any man, and her life as a farmer's wife is apparently happy.

During the last season Mrs. Berger cut fifty acres of wheat and thirty acres of oats. She is an expert in cutting grain with a self-binder. Besides doing this work on the home farm, she cut fifteen acres of grain for a neighbor, Levi Ludwig, and eleven acres for St. Wilhelms. She has three horses, which she changed every three hours, using three sets. She also cut all of the grass on her husband's farm. She gets up early in the morning to serve a milk pail. She harnesses her favorite horse, hitches him to the wagon and serves Berksville customers. When she returns home she milks the cow, puts him in his stall, removes the harness, washes the milk cans and after finishing her household duties goes to bed.

She is also a splendid cook. She is assisted in the housework by her mother. While not compelled to do this work, Mrs. Berger is frugal and thrifty, and looks forward to the time when she and her husband may retire from the farm to take things easy. The life Mrs. Berger leads will seem to some perhaps as drudgery, but to her it is real life. She said:

"I have some other extra. This is not a case where the husband is lazy and the wife industrious. The farm contains 164 acres, and there is plenty for both of us to do. My husband does his share. He is an expert farmer and raises big crops."

Mrs. Berger is 34 years old. She is about 5 feet 4 inches in height and weighs 160 pounds. Frequently she goes to work in the fields in the morning and does not cut a blade of corn until midnight. She asserts that many persons eat too much. She likes the life she is leading and declares that they worked harder. She said:

"Too many young fellows only want husbands nowadays who can afford to keep them in idleness. That is not living. I call that only existence. Woman was not created to be a burden to a man, but a helper. I never saw a lazy woman happy."

## Y. M. C. A. NOTES

Final arrangements are being made for the beginning of the gymnasium classes of the Y. M. C. A. early next week. A number of new features will be included in the work this year, which will be under the direction of Harry Franks, physical director.

EASTMAN BACK TODAY.  
Walter D. Eastman is expected to return today from a conference of the employed officers of the Y. M. C. A. of northern California which has been held in San Francisco. The matter of inter-association games is being discussed at this meeting, as also is the institute being planned for employed officers in 1913.

WATSONVILLE CONFERENCE.  
L. C. Lewis, boys work director of the local Y. M. C. A. and S. Warren Douglas, county secretary have been appointed on the committee to arrange for the conference of the Y. M. C. A. of boys which is to be held in Watsonville, November 1-3. The meeting was held last year at Stockton. The committee on arrangements this year consists of T. S. Caldwell of Oakland, chairman, L. T. Lewis of Fresno, R. Warren Douglas, Fresno county superintendent, and S. C. Dickson and R. C. Hanson of San Francisco.

P. X. CLUB.  
The first meeting of the P. X. Club will be held next Friday evening at the Y. M. C. A. A session will be served and the election of officers will be held during the evening. The club will this year take up the life of Paul under the tutelage of H. Z. Austin, Judge of the Superior Court.

## PRICE OF WALES NOT TO PLAY FOOTBALL

LONDON, Sept. 17.—The Prince of Wales when he goes to Oxford University in October will occupy the quarters in the tower of Magdalen College, which were reserved for the son of Henry VII in the fifteenth century. The last time a Prince of Wales attended Magdalen College.

The precedent set by his grandfather, King Edward, will thus not be followed.

The latter when attending Christ church lived, not in the college, but at Frewen hall, beside the college.

The young prince will thus get more of the undergraduate life than his grandfather did, but the proposal to have him take part in the college games has been rejected, probably on the grounds that such participation would be altogether too democratic for the future ruler of the British Empire.

"You handle large sums of money in this play, a million or more in every act."

"I see," said Yorick Hamlin.

"And you must handle it like you were used to it."

"I see. Could you let me have a \$2 bill to rehearse with?"

## Aunt Sally's Advice to Beauty-Seekers

C. M. P.: The neck should receive similar attention to that given the complexion, so color and texture of skin will be the same. A yellow neck and a white face give a discordant effect. I advise using for both neck and complexion, the treatment recommended to "Maudie."

F. M.: First, stop scowling. If you would not rid of the lines between the eyes. The best application for such lines and all wrinkles is a solution of powdered suet, 1 ounce, dissolved in witch hazel, 1-2 pint. Rub the face in this daily until entirely relieved.

Maudie: You hardly need such a list of cosmetics as you mention. Ordinary uncolored wax will help you more than any or all of the others. Discard the complexion and you will soon have a new, youthful and healthy-looking skin. You needn't get more than an ounce of the wax, which will cost you little at any druggists. Apply nightly, like cold cream, washing it off mornings.

Woman's Realm.

## VOLUNTEERS

The alleged Republican convention which met in Fresno yesterday had of course no standing in law. Its members were not elected by anybody and did not represent any constituencies. It was simply a voluntary assemblage of individuals, each representing himself. Or, if it represented any one, it represented not voters in Fresno county, but national committeemen in Chicago. The half dozen of its members who had been elected to the Republican convention had publicly bolted that convention, and all the others were merely volunteers or invited guests. They represented each his own standing—in some cases large and in some cases small—in the community, and such abstract merit as their cause itself may have in any voter's mind.

The convention, of course, has no function in the present campaign. Such of its members as are persons of influence will continue to have neither less nor more influence by virtue of their informal assemblage with others in an unofficial body. They may take charge of the Taft campaign, but repeated tests have shown that the Taft voters in Fresno county are hopelessly few.

The only purpose of the convention was to save a point for the future. It was assumed that the Progressives, whom these gentlemen are now trying to kick out of the Republican party, will eventually go out voluntarily. They then hope to be the residuary occupants of the deserted structure.

That hope may possibly be realized, at a future campaign. But note that the possibility of its realization depends wholly on its not being worth realizing. If the Progressives do get out of the Republican party of California, and especially of Fresno county, there will not be enough left of it to be worth inheriting. And if the Progressives do not get out of the party, then the Progressives will continue to control the party.

Assume, however, that the expectations are realized, and that two or four years from now, by the organization of a California Progressive party, the informal bolting organization started yesterday succeeds to the name-plate of the Republican party. What will it have, of that which made the name-plate stand for anything?

It will not succeed to the membership of the Republican party, for most of that membership is now committed to the Progressive cause, and remains Republican in California only because the Republican party in California had already become the Progressive party, before any National Progressive party was formed.

It will not succeed to the principles of the Republican party, for those principles in California were already enunciated two years ago on identical Progressive lines, and the principles of the National Republican party, during all the years when it was a real party, were always on the progressive side of the issues of the changing times.

It will not succeed in any real sense to the regular organization of the Republican party, for that organization, in California, is Progressive, and the new organization could not by any regular process succeed it. They must proceed as founders of a new party, unrelated to the past—which is exactly what they will be. And if they succeed now to reorganization by the alleged national organization of the party, it is only because that organization has become unrepresentative and usurpatory. No national organization which really represented the party would have recognized, or would have been so constituted as to desire to reorganize in California a volunteer organization standing for nothing but the negligible remnant of a once-dominant party.

"No one will want to buy anything while Bryan is here," says the Democratic organ. Even Democrats now associate suspension of business with Bryan.

Whatever Lincoln was, the fact that leaders of all parties are now claiming him as their prototype is evidence of his ideal statemanship.

My life is simple to Marshall of Indiana. All you have to do to wipe out the trusts is to leave them to the states, who will destroy them without aid from the national government. If this is true, why are the Democrats talking of the trusts as a national issue? And why are there trusts in states controlled by Democrats, Indiana, for instance?

We are advertised by our loving friends. If you want to learn about the interest taken in the Republican, look to the editorial columns of its alleged competitor.

## FREE MARKET

Whether Mayor Snow's experiment of a free public market succeeds or fails, depends on the attitude toward it of producers and consumers. It will be an extremely good thing for everybody, if it does succeed. It gives producers a chance to get better prices and consumers a chance to get cheaper goods, by eliminating the middleman's costs. The middleman's profits can be divided between producer and consumer, to the advantage of both.

That the scheme in itself is both workable and advantageous admits of no doubt at all. The only doubtful question is the human one. The free market will save money, but it will cost trouble. It is easier for the farmer to deliver his goods in bulk at wholesale prices, than it is to sell them himself, at retail prices. It is easier for the housewife to telephone her order, when she happens to think of it, to the grocery store, than it is to plan things in advance and then go personally to market. A large part of the high cost of living is due to the business engendered by modern improvements. The producers of food do not get inordinate prices for them, and the retailers of food do not make inordinate profits, over their expenses. But the expenses are decidedly inordinate.

The housewife will not submit to economy of distribution. Grocers, compete with each other, not so much in lower prices, but in "greater accommodations." That means that the grocer takes the whole burden, and the housewife none. The economical way to distribute goods is to have the customers themselves do as much of their own delivering as possible; to have them wait their turns to be served; and to have the delivery systematized, one or two regular deliveries a day, with no wagon sent out until it is fully loaded, for addresses which it can serve with the least extra travel. But to do things in this way requires the housewife to think and prepare in advance, and to take some of the troubles of the business on her own shoulders. Housewives prefer to transfer this burden to the grocer, and of course, since the burden costs him money, he must charge up that cost to the goods and then figure his profits above that. If all grocers were philanthropists, and none of them made any profits at all, the cost to the consumer, under the present system, would still have to be a great deal higher than the price paid the producer. And of course the housewife also demands a "variety" of things in season locally and of things which have to be imported, all at the end of the same telephone. Of course she can not get that in the free market.

The same conditions prevail on the producing end. The farmer who desires to sell his goods in the free market must pick them seasonably, sort and cull them himself, risk his own wastages, and stay in town several hours, on market days, to do his selling himself. All this is a good thing, because it pays; but it costs trouble, and some people do not like to make money, if it is too much bother and personal effort to do it.

It is earnestly to be hoped that the market experiment will succeed. It has, elsewhere, where people were willing to adapt themselves to it. It is decidedly the most promising practical means of reducing the cost of living, while at the same time increasing the incomes of the small farmers. The test is not of the scheme, which is known to be good; but wholly of the people. Do the farmers care enough for increased profits to take some personal trouble to get them? Do the housewives care enough for decreasing the cost of living to do it by personal effort? If so, the free market will succeed. If not—then we shall have demonstrated that we would rather spend extra money than to do extra personal work.

## FRESNO LEADS

The first semi-annual apportionment of state moneys for elementary schools as announced last night, is a striking tribute to the educational standing of Fresno county. This apportionment is based entirely on the number of teachers employed. The next one will be based on pupils in attendance. That one will be, if anything, even more favorable to Fresno. And in high schools Fresno ranks comparatively even better than in elementary schools. Recently, for instance, yesterday announced a high school attendance greater than Fresno had a few years ago, when Fresno was already much larger than Redley is now, and had the whole county to draw on besides. High school attendance has increased many times more rapidly than population has—which speaks well for the increasing civilization of the community. High school graduates were scarcer, a few years ago than college graduates are now.

Coming down to the elementary schools, Fresno county stands fourth in the state—first after the three big cities. The figures, based on teachers, for the elementary schools, are:

Los Angeles .....\$482,857  
San Francisco .....282,500  
Alameda .....215,500  
Fresno .....101,322

The only others in our class are: Santa Clara, \$81,530; San Diego, \$78,582; Sacramento, \$61,045; and San Joaquin, \$52,832. And all these are far surpassed by Fresno as practically to be outclassed.

It is good to lead in products, in trade and in wealth. It is even better to lead in education and enlightenment. Fresno is fortunate to lead in both respects.

For these are the two tests—the school apportionment, which puts us first in our class and first outside of the three great seaport cities, and the state fair, at which Fresno won first prize over all the other counties in the state.

## IT HAS BEEN PROPOSED THAT CHILDREN BE TAUGHT TO SALUTE POLICEMEN.

By John T. McCutcheon.

## "WHATSOEVER THY HAND FINDETH TO DO, DO IT WITH ALL THY MIGHT"

Cecil Rhodes was a remarkable man—a sort of seer. He seemed able to see ahead in certain matters. One Sunday in Cape Town, South Africa, Cecil Rhodes was talking with a man far greater than he, or than any of his contemporaries, even. He was talking with the late General William Booth, founder of the Salvation Army, of whom Queen Victoria once said: "I feel more insignificant in the presence of that man than I can really explain."

"To what particular quality or combination of qualities do you ascribe your success?" asked the empire builder of the Christian soldier.

"I will make answer in my address this afternoon," said General Booth. And that afternoon he chose for his text the words, "Whatsoever thy hand findeth to do, do it with all thy might."

That was the secret of the unusual success of the man who did more for humanity than any other of his generation. Likewise it has been the secret of the success of nearly every man or woman who has done much for humanity.

It would seem that in his divine plan the Creator willed that we should find no reward in halfways. We must have high and holy purpose and then, having selected a goal, press on to it with all the might and vigor at our command. We must not be handicapped by such things as would ordinarily cause men to falter. We must be energetic and wise enough to make help of our hand-loups.

General Booth himself accomplished his vast results in the face of a physician's prediction that he had only a few years to live and that he should, in justice to himself, spend those years in quiet and retirement.

## BRIEF EDITORIAL FANCIES SELECTED

## Japanese Arc

## Seeking Advance

The Japanese laborers on whom so much dependence has been placed in the past as vineyard workers, mainly because of their willingness to work for low wages, have grown wise to the situation. Having studied labor conditions as regards the supply of labor at command, they have concluded that the situation is at their mercy. As a result they have untidely decided on a demand for higher wages. In the Stockton district they want \$2.50 per day, refusing the \$2.25 voluntarily offered. In the Fresno and adjacent territory they have not yet stated their position, but as they appear to have an understanding (call it a union if you will) there is not much doubt that the Stockton demand will be repeated. As white workers will scarcely grade themselves as worth less than \$2.00 in the labor scale, it would look as though the growers were up against a serious proposition.—Visalia Delta.

## Another Pace That Kills

The life insurance business is not a "game." Its "risks" considered in bulk, are not risks at all. They are based on cold, hard rules obtained as

The world knows what he did with the many years that were his thereafter. The world knows, nor will ever forget, how he threw himself with all his might into a holy work that had theretofore been overlooked and neglected.

What he did is not to be wondered at when we remember that he had behind him the power of faith and the strength of his own might. He had put himself into the hands of the Lord God of hosts to be used as an instrument for the bettering of mankind, and he was given strength and grace sufficient for the task.

He lived to see his work firmly founded and accepted by all men as necessary and vital to human progress. This is not always the case, even when we put our whole might into what we think is to be done. Often we are mastered out of earthly service before we have more than begun what we set out to accomplish. It is given to few to see the end attained. But that is not the point.

The great point in the sight of the Father who loves and equips us is for us to do all that we can, and to do "whatsoever thy hand findeth to do." There are so many of us who think we could make a greater success of something else than that which is at hand. We waste time and strength wishing for other fields in which to labor, when, did we but put our whole might into the cultivation of the one at hand, we could achieve much.

Each in his day, and in his way, Plenty for all to do. The aim of the true Christian is not low much, but how well! Let each man find his own work. "Well done, thou good and faithful servant."—Philadelphia North American.

The result of many years' close and comprehensive study of mortality records, so, in cases where life insurance companies refuse to issue policies, there are good reasons for it.

The national association of life insurance men met in Chicago last week. One of the most interesting subjects it considered was the increasing desirability of women as insurance risks. It is estimated that there are about 5,000,000 women earning their living in this country, many of them with others dependent on them for support. The insurance companies are gradually including them in their field of operation.

That life is what one of the most eminent insurance authorities said during the convention: "Women who live the so-called high life have a hard time getting insurance on their lives. Companies do not want to take them. They eat such indigestible foods, drink so many harmful beverages, and so weaken their vitality by an artificial way of living that they go the quick route to the grave."

Denunciation, ridicule and argument have in vain assailed the mode of life followed by many of the high life and the ultra-fashionable. Nevertheless, the society has gone steadily and easily on its way. But here, at last, is something which may well make it pause. The verdict of the life insurance actuaries is a warning so grim that it cannot lightly be disregarded.—Beverly Enterprise.

# SOCIETY

A wedding of interest to Fresnoans was solemnized in Madera on Wednesday morning when Miss Marion Marchbank, eldest daughter of Mr. and Mrs. George Marchbank, became the bride of Fred Barnett, at a prettily appointed wedding, at the home of the bride's parents. A yellow and white color scheme was strictly carried out with the nuptial combination of white carnations and golden-rod. A luscious wedding cake, served in the living room, and supported a wedding bell of white carnations. The bride party included Frank Barnett, the groom's brother, and Miss Hazel Osborn of Selma, the marriage service being read by Rev. Hood, pastor of the Presbyterian church.

Miss Marchbank's gown was an attractive creation of muscadine and chiffon with lace garniture. She carried a shower bouquet of white roses. Miss Osborn was attired in yellow tulle, and carried an armful of yellow and white chrysanthemums.

After a wedding breakfast, Mr. and Mrs. Barnett left by machine for Madera, where they took a north-bound train. Mrs. Barnett's going away suit being a becomingly tailored affair of blue with a trim little hat of corresponding tone.

Upon the return from their honeymoon, which will be spent in Sacramento and San Francisco, the young couple will reside on the Barnett farm near Berenda.

Mrs. B. F. Shepherd is enjoying a visit with friends in Los Angeles.

Miss Louise Togni, an attractive Visalia maid, will arrive today, to be the guest of Miss Florence Lockwood, over the week-end.

Mrs. Willis Pike is down from San Francisco, on a visit to Mrs. W. J. Dickey.

Despite the warm evening, the Sun-aside Country Club was the setting for one of the hottest affairs of the early season, last night marking the initial social event of the post-vacation tide. An all fresco dancing party was the delightful form of entertainment, the out of doors platform being employed with charming effect. The wealth of shrubbery in the club grounds makes an admirable background for this open-air ball room, and last night made a lovely picture with its daintily frocked dancers and their sumptuously attired escorts. All lighted with gay lanterns and brilliant moonlight.

Numerous little dinner parties preceded the affair, Mr. and Mrs. E. R. Rogers having with them, Mr. and Mrs. Frank E. Cook, and Miss Mary Wilcox, and Charles Teague's party including Mr. and Mrs. L. A. Nares, Mr. and Mrs. Lee Gray, Mr. and Mrs. A. L. Sayre of Madera, Mr. and Mrs. Thomas Lynch, Mrs. N. Blackburn and B. F. Shepherd.

Dr. and Mrs. J. C. Cooper were also among the dinner hosts.

Mrs. E. C. Van Buren was made the motif of a jolly affair on Wednesday evening, when a party of friends assembled for a surprise celebration of her birthday. Mr. Van Buren assisted in keeping the affair secret. The entertainment was purely informal and concluded with the serving of tempting refreshments.

Mr. and Mrs. Charles Collins, of Pontiac, Illinois, left last night for Los Angeles, after a delightful visit with Mr. and Mrs. Victor Fredericks.

A "Pringle Social" was the entertainment given by the members of the Alhambra Baptist, and Philanthropic Classes of the First Baptist Church last night in the church parlors. Greenery and blossoms arrayed the setting, where Miss Blanche Davidson, Miss Ella Smith and Fred Under, representatives of the three societies, formed a reception committee and greeted the guests upon their arrival.

A general idea of "Pringle" was carried out, games for that number of participants having been chosen, and the refreshment table having been laid for three, in deep appreciation of the old saying that "three is a crowd."

An entertainment committee composed of Mesdames Robert Carpenter, Miss J. E. Shure and J. L. Reeder, arranged an interesting program and saw to it that there was "never a dull moment."

Miss Myrtle Swanson contributed an enjoyable number, and a number by the recently organized orchestra gave much pleasure. A conundrum tableau concluded the program, after which came the supper hour and general informality.

Garth Campbell returned yesterday morning from San Francisco, where he recently passed the Bar examination.

Mrs. H. H. Poole, of Visalia, will be among those attending the Fashion Show next week, and will be the guest of Mrs. W. H. Browster during her sojourn in town.

The Veta Veta Embroidery Club was delightfully entertained yesterday afternoon by Mrs. Walter Ford for its initial meeting since the club was rechristened, having been formerly known as the Even Dozen Embroidery Club. Mrs. Ford's mother, Mrs. Reeder, who is out from Illinois, for a full sojourn in Fresno, was the guest of honor on this occasion. Glorious blossoms and pepper spray made the living rooms attractive, and after the hour of needlework, a refreshing array of dainties were served.

Among the members present were Mesdames Bert Primrose, Walter Ford, Guy Borrick, N. Y. Boswell, Waterman, R. T. Mariner, Grant Tupper, Roy Wilfney, E. J. Kauran, Gay Dunham.

Mrs. Kauran will be the club's hostess two weeks hence, at her home on Illinois avenue.

The members of the Golden Hour Circle of the First Presbyterian church will meet this afternoon at 2:30 o'clock at the home of Mrs. H. A. Momen.

145 Glen avenue, for the initial meeting of the fall season.

Miss Ethel Shaver will leave tonight for San Diego, to be the guest of Miss Marian Mitchell for a time.

X. M. Zimmerman, of Pasadena, is the guest of Mr. and Mrs. H. E. Zimmerman for a short time.

The West Park Thursday club held a very enjoyable meeting yesterday afternoon, at the home of the president, Mrs. Morton Hanson, on McKenzle avenue, this being the initial meeting of the study year. Vacation notes were in order, and the afternoon passed very pleasantly. The club will study the history of the American government this year, beginning at the next meeting, at which Mrs. H. W. Burroughs will be hostess.

Miss Bella Harris, daughter of Mr. and Mrs. E. C. Harris, of Fowler, and Lloyd Pennington, of La Grange, were united in marriage yesterday evening at the Calvary Presbyterian Church, Rev. Duncan Wallace officiating. Only the immediate relatives and friends witnessed the ceremony, after which the wedding party enjoyed a breakfast at the Hughes, Mr. and Mrs. Pennington left for San Francisco, and will enjoy their honeymoon, and upon its completion, they will reside in La Grange.

The ladies of the Golden Rule Circle of the First Christian church will meet this afternoon with Mrs. M. A. Higgins, at her home 1707 Belmont avenue.

Word has been received of the marriage of Miss Amy L. Herron and Ross L. Douglas, of this city, which occurred last week in San Diego.

Miss Herron and her father, Ira L. Herron, of Longmont, Colorado, were summering at the southern resort, when Mr. Douglas joined them on his vacation. The marriage ratifies a friendship of some length.

Mrs. J. A. Dalnazzo of San Diego is the guest of Mrs. S. J. Sammons at her home on Van Ness avenue.

Mrs. Alva Pomeroy entertained informally at bridge yesterday at her apartments in the St. Andrews, complimenting Mr. Pomeroy's mother, Mrs. Pomeroy, who is down from San Francisco on a visit.

Mrs. G. H. Taylor of 2223 Illinois avenue was hostess at a jolly party on Wednesday evening. Informal games and music were part of the evening's pleasure, and late in the evening refreshments were served.

Those who enjoyed the evening were: Mrs. Taylor, Mrs. W. A. Shaw, Misses M. M. V. Shaw, Bertha Roth, Elmer Roth, Hattie Bickins, Marian Riggs, Bertha Kammann, Mamie Shaw, Messrs. Homer Brown, Richard Taylor, Melvin Taylor, William Shiroder, Otto Kammann, William Shaw, Henry Herzog.

The Pastime Sewing Club held its first meeting yesterday with Mrs. L. E. Smith as hostess. The afternoon was spent in sewing and talking over vacations; later refreshments were served. Those present with the hostess were Misses Catherine and Mary McAlpine, Margaret and Mabel Prior, Mrs. Fred Duleavy, Mrs. Charles Jackson, Mrs. Marshall Ellis was a guest of the club.

Yesterday morning at the home of Mr. and Mrs. Homer Hall in Dubuque, occurred the marriage of their daughter, Miss Ida Hall, and Lloyd E. Tietman, Rev. E. J. Page officiating. The wedding is of interest to many Fresnoans, as both of the principals spent their childhood in Fresno. Miss Hall has been a member of the Reedley Grammar School faculty for several years, and is the first member of the Bachelor Club in Reedley to break its ranks. Mr. Tietman is the editor of the Reedley Exponent, and enjoys a popularity among many friends throughout the valley. He is prominent in lodge circles. Miss Tietman is a daughter of Mr. and Mrs. Tietman, the bride's sister and the groom's brother, were the only attendants.

Mr. and Mrs. Tietman will spend their honeymoon in San Francisco and upon their return, they will make their home at the Grand hotel.

## GREEN FRUIT PRICES STILL HOLDING UP

Movement Out of Valley Is Heavy and Above Average of Last Week

FRUIT SHIPMENTS  
Shipments reported.....2,431  
Shipments reported yesterday.....32  
Total shipments.....2,463  
Prices on green fruit are holding up well and the movement out of the valley continues heavy. Thirty-two cars were shipped to the Eastern market yesterday and this number is up to the average for the past week. The total to date this week is 137 as compared with 110 for the same days last week. The total for the season, however, is still short of the number sent out last year. The green fruit men are said to be holding back in order to bring out their shipments later this month and thus take advantage of the expected increase in prices on the Eastern markets. Reports from these markets yesterday were to the effect that prices are holding up better than anticipated and no decrease is predicted. The general tone of conditions in the East is for a slight advance in quotations.

## CIVIL SERVICE EX'S HERE ON OCTOBER 11

Two civil service examinations are to be held at the Fresno postoffice on October 11. Both are for male applicants only and application blanks may be secured at the postoffice now. One is for a sanitary engineer and the other for an agriculturalist in charge of government work. The engineering job pays \$2,000 per annum and the agriculturalist from \$2,500 to \$3,000 with traveling expenses.

## SAYS BREWERS ARE MAINSTAY OF NATION

BOSTON, Sept. 19.—"Brewers are the mainstay of the nation and of practical temperance," said President Jacob Rupprecht of the National Association of Brewers in his opening address at the annual convention of the United Brewers' association. The labor question was referred to in the annual report of the trustees was said.

Experience emphasizes the need of a national brewery trade agreement and a national brewery arbitration board which would jointly represent employers and employees.

## FINE EXHIBIT FOR SCHOOLS AT FAIR

Classes to Work in Public in Dairy Work, Painting, Sewing, Etc.

A feature of the coming Fresno county fair will be the exhibit, housed by the school department, which will show various kinds of work taught in the schools being performed by grammar and high school students. It will not merely be an exhibit of the work of sewing or woodworking classes set aside about the walls, but an exhibit of the students actually at work, making furniture, sewing, painting, and even churning butter. All will be under the supervision of teachers of the department and will be the same as in the classes at the school.

A large building is being erected in the shape of a cross which will have open sides and the work can be viewed by spectators from without. It is being built under the shade trees at the fair grounds and should not get uncomfortably warm.

Volunteers will be called for from the schools to assemble in the classes. There should be no difficulty in securing enough students as many are anxious to display their skill.

The most interesting class will probably be that in dairy work where all the processes of making butter and cheese will be gone through for the benefit of the onlookers. There will also be classes in art, domestic science, painting, handcraft, sewing and woodworking. The domestic science classes will not doubt pass out their tempting dainties gratis to the public in an endeavor to prove by the eating that their results are as good as those to display their skill.

Different classes will work throughout the day in relays from the high and grammar schools.

It is planned to have a children's day at the fair when all the school children will be admitted free on a half holiday granted by the school department but no arrangements have been made.

## CAFETERIAS UNDER CONTROL OF UNION

T. C. Seward, secretary of the Cooks and Waiters' Union of this city, stated yesterday that the local had decided to exercise jurisdiction over all steam tables in grocery stores, cafeterias, and other similar places. The union also voted to issue new buttons for its members, these to be worn by cooks, waiters and dishwashers in all restaurants where the union card is displayed. The buttons will be printed in different colors to distinguish the respective branches of the trade.

## BIG ANGORA CAT KILLS A BULL DOG

LOS ANGELES, Sept. 19.—Tiger, an Angora cat, owned by Mrs. Harry Lindley of Venice, attacked and killed a full blooded English bulldog, owned by J. C. Fremmer, at Venice today.

Mr. Lindley was strolling along the ocean front walk when the dog sprang at the cat. Tiger ran toward the surfer and reaching the waters edge, with no safety in sight, turned and gave battle. Within two minutes the bulldog, bleeding and helpless, fell upon the sand. The cat then leaped upon the dog's head, with its teeth and claws severed the dog's jugular vein.

## HARVESTER HEARING POSTPONED

CHICAGO, Sept. 19.—Owing to the illness of Edgar A. Harvester, counsel for the defendants, the taking of testimony in the government's anti-trust suit against the International Harvester company was postponed today, probably for several days.

## OFFICE SECRETARY OF Y. M. TO LEAVE

Arthur Louch Departs for Training School in Chicago Monday

Arthur Louch, office secretary of the Fresno Y. M. C. A., who for two years has been connected with the local association, will leave Monday for Chicago to take up Y. M. C. A. work in the training school in that city. Mr. Louch will study for three years and then return to Fresno where he hopes to make his home. There are two general courses in the Chicago training school, one in the physical department and the other in the executive department. As the role work of Mr. Louch in the Fresno Association has been connected with the office, he is expected to take up studies in office management and general office training, which would be equally valuable for a boys work director, an office manager or a general secretary.

While connected with the Fresno Y. M. C. A., Arthur Louch has made two general courses in the Chicago training school, one in the physical department and the other in the executive department. As the role work of Mr. Louch in the Fresno Association has been connected with the office, he is expected to take up studies in office management and general office training, which would be equally valuable for a boys work director, an office manager or a general secretary.

## POSTMASTERS MEET

RICHMOND, Va., Sept. 19.—Penny postage, parcels post, postal savings, banks, rural delivery, the classification of fourth class postmasters and various other topics were discussed today before the National League of Postmasters of the United States in convention here. More than 500 postmasters of the third and fourth classes are in attendance.

## ARCHDUCHESS IS MARRIED

VIENNA, Sept. 19.—The marriage of Archduchess Louise Francis, daughter of Archduke Francis Saluzzo, and Count George von Waldburg, drew a throng of guests today at the castle chapel of Schloss Waldburg, in the presence of Emperor Francis Joseph.

The archduchess recently renounced her royal rights. Count von Waldburg formerly was the tutor of the archduchess and her brothers.

## BARBOUR SPEAKER AT N. Y. MEETING

Classes to Work in Public in Dairy Work, Painting, Sewing, Etc.

A feature of the coming Fresno county fair will be the exhibit, housed by the school department, which will show various kinds of work taught in the schools being performed by grammar and high school students. It will not merely be an exhibit of the work of sewing or woodworking classes set aside about the walls, but an exhibit of the students actually at work, making furniture, sewing, painting, and even churning butter. All will be under the supervision of teachers of the department and will be the same as in the classes at the school.

A large building is being erected in the shape of a cross which will have open sides and the work can be viewed by spectators from without. It is being built under the shade trees at the fair grounds and should not get uncomfortably warm.

Volunteers will be called for from the schools to assemble in the classes. There should be no difficulty in securing enough students as many are anxious to display their skill.

The most interesting class will probably be that in dairy work where all the processes of making butter and cheese will be gone through for the benefit of the onlookers. There will also be classes in art, domestic science, painting, handcraft, sewing and woodworking. The domestic science classes will not doubt pass out their tempting dainties gratis to the public in an endeavor to prove by the eating that their results are as good as those to display their skill.

Different classes will work throughout the day in relays from the high and grammar schools.

It is planned to have a children's day at the fair when all the school children will be admitted free on a half holiday granted by the school department but no arrangements have been made.

## WINE COMMITTEE HAS NOTHING YET

Manufacturing Proposition Is Submitted From San Francisco

It is not probable that the committee, chosen by the wine grape growers of the Fresno district to see if a better price could be secured for the grapes than the \$3 a ton that is now being offered, will be ready to report tonight, as was planned, according to an announcement made yesterday.

The committee is now awaiting word from the officials of the California Wine Association in San Francisco, on a partial offer made on a long time contract.

It was said yesterday that one San Francisco firm had agreed to take the grapes on a manufacturing basis, and if this should be done, it would mean that the local wine men would have to pay higher prices to the growers or would be forced to cut prices to the lowest possible level, if they wished to preserve themselves.

The proposition, as outlined, is to take the grapes, give the growers certificates for gallons of wine and then market the wine, giving the growers the profits, less manufacturing cost and the manufacturer's profit.

Just what price will be received is not known, and it is hinted that even after an agreement is reached, the price will not be made public, out of courtesy to the California Wine Association, which established the \$3 price.

## SEAWARD TO ATTEND F. OF L. MEETING

T. C. Seward, district organizer of the American Federation of Labor, will leave today for San Francisco to attend a meeting of the executive board of the state Federation of Labor, of which he is second vice president. Seward is also a member of the executive board, a position he has held for four years. The meeting will open tomorrow morning and last till Sunday night, when Seward will return to Fresno. The local man is a candidate for re-election as vice president from the second district at the San Diego convention next month.

## Easy To Get Rid of Dandruff And Stop Hair From Falling

Parisian Sage Hair Tonic Will Make Any Person's Hair Luxuriant and Fascinating.

## LOOK OUT FOR IMITATIONS

Give Parisian Sage a chance to drive every particle of disgusting dandruff from your hair.

Give it a chance to soak into the hair roots and stop the hair from falling out.

You won't be sorry if you do—you'll be dandruff dirty all your life if you don't.

And when you get a bottle of Parisian Sage you are not throwing any money away, because it is guaranteed to eradicate dandruff; to stop falling

hair and itching scalp in two weeks, or money back.

It is not a dye and does not contain poisonous lead. If you think lead that colors the hair is safe to use ask your doctor or druggist.

Parisian Sage kills the dandruff germ because of its peculiar power to get to the roots of the hair; right where the germs thrive and multiply. But besides killing the germs it supplies nourishment to the hair; stops it from falling out, and causes it to grow thick and luxuriant.

Parisian Sage is a most delightful hair dressing, not sticky or greasy. A large bottle for only 50 cents at drug stores, department stores and toilet goods counters everywhere. San Joaquin Drug Co. guarantees it.

## Have You Heard the Wonderful

## FOR WOMEN ONLY.

That is the nature of Dr. Pierce's Favorite Prescription—the one remedy for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots. Dr. Pierce tells its every ingredient on the bottle-wrap.

This is what Mrs. GENETHE E. COFFEY, of Longstreet, Ky., says: "I feel it my duty to write and tell you what your medicine have done for me. I was a great sufferer for six years from a trouble peculiar to women, but I am thankful to say, after taking four bottles of your 'Favorite Prescription' I am not bothered with that dreadful disease any more. I feel like a new woman. When I first wrote you for advice I only weighed 115 pounds—now I weigh 135."

"I thank you very much for your kindness. You have been as a father to me in advising me what to do, so may God bless you in every effort you put forth for good."

"I hope this testimonial will be the means of some poor suffering woman seeking health."

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

## A Reliable All Around Household Remedy

Duffy's Pure Malt Whiskey is used in Mr. Agor's home as the family medicine. He has used it most successfully for bowel troubles, nervousness and colds.

It should be in every family medicine chest—the very best for emergencies. Used for over half a century.

In his letter he says, "I have used Duffy's Pure Malt Whiskey in my family for the last eight years. It is certainly a wonderful remedy for colds, bowel trouble and nervousness. We take it as an all-around household remedy and feel sure it can't be beat." John Agor, R. F. D. No. 3 Hammondport, N. Y.

MR. JOHN AGOR.

## Duffy's Pure Malt Whiskey

is an absolutely pure distillation of clean, selected grain, carefully malted and so processed as to remove, as far as possible, all injurious elements. It is manufactured for the purpose of supplying the profession and public in general with a reliable tonic and stimulant, and without question is the purest and best. It is a recognized specific to enrich the blood and build body and muscle, and in the prevention and relief of coughs, colds, and stomach troubles it has no equal. It makes the lad feel young and keeps the young strong and vigorous.

Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, \$1.00 a large bottle. Our doctors will send you advice and illustrated medical booklet on request. The Duffy Malt Whiskey Co., Rochester, N. Y.

## PRESIDENT PLANS NATIONAL BUDGET

Will Have Estimates Prepared in Spite of Congress

BEVERLY, Mass., Sept. 19.—The President has decided to have the people of the United States a chance to see how the government is getting on. He has decided to have the people see the government's budget.

The President has decided to have the people see the government's budget. He has decided to have the people see the government's budget.

## ARTHUR COLEMAN IS SUCCESSOR TO SMITH

Young Employee of Santa Fe  
Given Quick Promotion  
in City Office

R. W. Holart, general agent of the Santa Fe in this city, announced yesterday that Arthur Coleman had received the appointment of city railroad and steamship ticket agent to fill the vacancy caused by the resignation of F. L. Smith. The appointment is in the nature of a promotion for Coleman, who has been assistant to Smith in the downtown offices of the Santa Fe. Smith is leaving the service to go to Southern Oregon, where he has purchased a large ranch.

## SANTA FE HAS 549 TRAINS IN 10 DAYS

For a period of ten days, ending on Wednesday, 549 trains were hauled over the Tehachapi Pass by Santa Fe engines, according to a report received here yesterday. This number included freight, mixed freight, passenger and refrigerator car trains which were moving east and west. Local railroad men declare this to be a record for a period of ten days. Over the famous pass, the Santa Fe uses the main line of the Southern Pacific.

## FIRST PRESBYTERIAN MEETING POSTPONED

The conference which was to be held in the First Presbyterian church this evening, has been postponed on account of the illness of the Rev. Ernest F. Hall, of Berkeley, who was to be present and to give an address.

## SANTA FE IS SUED FOR \$2,000 DAMAGES

Suit was brought yesterday by Mrs. Mabel Montgomery against the Santa Fe railroad company, charging damages for carelessly and negligently causing the death of L. T. Montgomery on the 11th of last July. Montgomery was one of two switchmen, who riding on the board of a switch engine, were run into by a backing train which was not provided with danger signals. It is understood that negotiations are pending for a settlement of the claim and that the filing of the complaint is the first formal step in this direction.

## HITE LAND COMPANY. READY TO DISSOLVE

Court petition was filed yesterday for the dissolution of the Hite Land Company, in accordance with the resolution of the stockholders, noted on the 18th inst. The company was formed to place on the market the Hite estate ranch on the West Side, and according to the petition filed there is no longer reason for its corporate existence as it has sold all its property. The directors are P. O. Boyd, holding 36,000 shares, Charles R. Puckhaber, W. H. Holland, Fred Dow and A. E. Clark, each holding 12,000 shares.

## YOUR DANDRUFF LOOKS BAD One application of Sam's Dandruff Pomade stops itching scalp, thrives to six removes all dandruff. For sale by leading druggists everywhere.

car & auto will meet you—no charge.

## TEDDY, WILSON, DEBS TO BE DISCUSSED BY FORUM CLUB TONIGHT

Taft Will Be Advocated at  
Next Meeting; 14 Have  
Joined Organization

The first public meeting of the American Citizens' Open Forum club of Fresno will be held tonight in the courthouse room where issues of the political campaign are to be discussed from the standpoint. All arrangements were completed yesterday by W. H. Curleton, founder of the local club. Curleton stated that three speakers will be on the program, though after these men have made their talks the audience will be invited to engage in the discussion from the platform. Tonight's program will be opened with two or three musical numbers after which M. R. Harris will be introduced. Harris will speak for twenty or thirty minutes on the principles of the Progressive party and advocate the election of Roosevelt and Johnson. Harris is to be followed by M. G. Hallahan, who will uphold the Democratic platform and introduce Wilson. The last speaker will be selected today by the Socialists of the city and their choice will advocate the election of Debs. At the next meeting President Taft will be upheld in the presidential race. Curleton stated that the club was formed for the purpose of holding weekly meetings in the courthouse park and later in a public hall until election day. Those who have joined are M. R. Harris, Frank H. Short, M. K. Harris, A. M. Drew, William Glass, William Main, J. F. Gallman, W. W. Wharton, W. F. Little, Ray W. Baker, Robert Lockheed, E. B. Lane, D. T. Winne and W. H. Curleton. The founder of the club claims to be the only Bryan Democrat in the organization to date.

## "PONCHO" HERMANN IS SUED FOR DAMAGES

M. Matalon Accuses Him of  
Breach of Partnership  
Agreement

M. D. Hermann, the tailor, was made the defendant yesterday in a suit by M. Matalon for \$3000 damages for breach of contract of the 17th of last month to form a co-partnership in a general tailoring business, to be located in the Cory building on Fresno street, and to have been opened on the 1st inst. Matalon's grievance is that without his consent Hermann attempted on the 15th to dissolve business relations by newspaper publication of dissolution of co-partnership, after failing to comply with any of the terms of the agreement. According to the complaint on file each was to put in \$250 capital to start the enterprise; the partnership was to be for three years; Matalon was to be the buyer and Hermann superintendent of the business and to keep the accounts. Each was to bear one-half of the expense and share in one-half of the profits, but there was to be no division of profits for one year and Hermann was to have on his private account all coat making in connection with his other tailoring establishment.

## NO COMPETITION BY OIL COMPANIES

Witness Shows How Stand-  
ard Trust Is in Fact  
Kept Up

NEW YORK, Sept. 19.—The Standard Oil company of New York exports to Japan, and purchases from the Standard Oil company of California, and the California company makes oil shipments to Honolulu, but not to Japan, according to Richard C. Velt, secretary of the New York company. Velt so declared today in continuing his testimony before a referee in the Standard Oil-Waters-Pierce litigation. "Why doesn't the California company export oil to Japan?" asked Samuel Untermyer, of counsel for the Waters-Pierce company. "I don't know," Velt replied. The witness added that he failed to remember whether the New York company sent its ships from New York to California to get this oil. It looked "business-like," he thought, for his company to care for the Japanese business rather than for the California company to do so. "They must not have the facilities," he explained. "But they do have the facilities for caring for the Honolulu business, haven't they?" "They have," Velt replied. "And there is no competition between the New York and the California companies for the Japanese business?" "No."

## MANY BONDS NEVER CLAIMED

United States Gains Half Million  
Through Failure of  
Creditors  
WASHINGTON, Sept. 19.—The debt of the United States government on which interest has ceased and the greater part of which probably never will be collected from Uncle Sam, amounts to \$1,769,450, covering loans all the way from 1790 to 1907. The fact was made public today by J. C. Napier, register of the treasury, in his annual report for 1912. Treasury officials are unable to explain the attitude of the holders of these bonds except on the ground that they know the principal is safe in the Federal treasury. It is estimated that nearly a million dollars of this debt has been lost or destroyed.

TIME FOR APPEAL EXTENDED  
WASHINGTON, Sept. 19.—The case in which Samuel Gompers, Frank Moore and John Mitchell may file appeals from their contempt of court sentences was extended today from October 1st to November 1st. The men are under jail sentences for violation of a court's injunction in the Ducks Store and Range case.

Fruit Pickers' Tally Tied at Republican Job Printing Office.

# Long Stroke Engine

More Power. Silent Chain-Driven Camshaft.

Enclosed Valves Quiet Engine

Longer wheelbase; larger tires; electrical system of automatic cranking, lighting and ignition simplified and improved; automatic spark control.

Numerous refinements of essential details.

You will bear witness that the Cadillac case has never been overstated.

Hold to that thought, please, in considering what we shall say of this new car.

Cadillac practice has progressively improved upon itself season after season.

It has now reached a point which, we believe, warrants us in thinking that comparison of the choicest cars with the Cadillac will hereafter confer a distinction upon those cars rather than otherwise.

For several years we have calmly observed the rapid rise of the Cadillac in public opinion.

Each year we have seen the little group of its equals in popular esteem narrowed down.

Each year we have seen a higher and higher price named as the basis of comparison with the Cadillac.

And we believe that basis of price comparison is about to vanish altogether.

We believe that the last mental reservation is about to remove itself from the public mind.

We ourselves have felt serenely sure for a long time that in point of real and substantial value the line of demarcation between cars of highest price and the Cadillac was an imaginary line.

We have felt that it was written in water, like the international boundary lines in the ocean—and we feel that this new Cadillac will complete the process of so convincing the public.

The advent of such a car at the Cadillac price is, of course, a matter of genuine moment; and you will be interested, therefore, in this news concerning it.

## A Few of the Improvements in the 1913 Cadillac

**LONG STROKE ENGINE**—4 1-2 inch bore by 5 3-4 in. stroke, increasing the power of the always extraordinarily efficient Cadillac engine. This amplification of power is especially observable at speeds from 12 to 35 miles an hour, dynamometer tests registering an increase of from 18 to 25 per cent.

**SILENT CHAIN-DRIVEN** cam shaft, also pump and generator shaft, replacing meshed gears, in conjunction with.

**ENCLOSED VALVES**, and the superb workmanship throughout in which the Cadillac has always excelled, producing an engine which runs with unusual quietness.

**CARBURETOR**—A carburetor of marked efficiency and simplicity has been further simplified, now requiring but a single means of adjustment, removing from it to the greatest possible degree, the necessity of attention.

**AUTOMATIC ELECTRIC CRANKING DEVICE, ELECTRIC LIGHTS, IGNITION**—A vastly simplified and improved Delco system developed at the instigation of the Cadillac Company for Cadillac cars, the result of experience with the old system on twelve thousand 1912 models.

While the old system demonstrated itself to be by far the most efficient for its purposes that had ever been developed, the Cadillac Company has evolved means of increasing that efficiency to as near the 100 per cent point as any mechanical appliance could be. Among the simplifications are the successful adoption of the single instead of double voltage system, thereby eliminating the controlling switch, the meter, much wiring and other parts. The meter is replaced by a voltage regulator which automatically governs the charging rate of the battery, reducing to an absolute minimum the attention required on the part of the user. The switches for

starting, lighting and ignition, the latter equipped with Yale lock, are more conveniently located. Lights are provided with fuses. These and other advantages will be enjoyed by users of the 1913 Cadillac.

**AUTOMATIC SPARK CONTROL**—Relieving the driver of the necessity of constant attention in order to secure the maximum results.

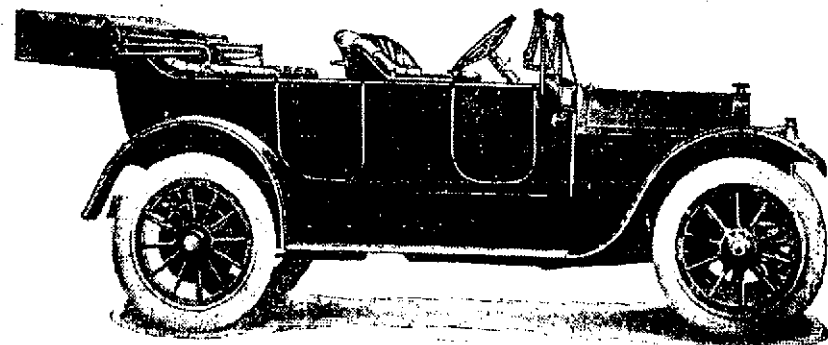

**LONGER WHEEL BASE**—The easy riding qualities of a car which has been regarded as the acme of luxury are accentuated by an increase in the length of the wheel base from 116 to 120 inches, and a corresponding increase in the length of rear springs.

**TIRES**—Increased from 36 in. x 4 in. to 36 in. x 4 1-2 in., with the obvious advantages resulting therefrom. Demountable rims.

**EQUIPMENT**—Cadillac top and wind-shield included. See specifications.

### SPECIFICATIONS IN BRIEF.

**ENGINE**—Long stroke, 4 1-2 inch bore by 5 3-4 inch stroke; four-cylinder, silent chain-driven cam shaft also pump and generator shaft, enclosed valves. Five-bearing crankshaft. **HORSE-POWER**—40-50. **COOLING**—Water, copper jacketed cylinders. Centrifugal pump; radiator tubular and plate type. **IGNITION**—See "Equipment." **LUBRICATION**—Automatic splash system, oil uniformly distributed. **CARBURETOR**—Special Cadillac design of maximum efficiency, water jacketed. Air adjustable from driver's seat. **CLUTCH**—Control type, large, leather faced with special spring ring in fly wheel. **TRANS-MISSION**—Sliding gear, selective type, three speeds forward and reverse. Chrome nickel steel gears, running on five Hoss-Bright ball bearings; bearings oil tight. **CONTROL**—Hand gear-change lever and emergency brake lever at driver's right, inside the car. Service brake, foot lever. Clutch, foot lever. Throttle accelerator, foot lever. Spark and throttle levers at steering wheel. Carburetor air adjustment, hand lever under steering wheel. **DRIVE**—Direct shaft, to level gears of special cut teeth to afford maximum strength. Drive shaft runs on Timken bearing. **AXLES**—Rear, Timken full floating type; special alloy steel live axle shaft; Timken roller bearing. Front axle, drop forged I beam section with drop forged yokes, spring perches, tie rod ends and roller bearing steering knuckles. Front wheels fitted with Timken bearings. **BRAKES**—One internal and one external brake direct on wheels; 17-inch by 2 1-2 inch drums. Exceedingly easy in operation. Both equipped with equalizers. **STEERING GEAR**—Cadillac patented worm and worm gear, sector type, adjustable, 18-inch steering wheel with walnut rim; aluminum saddle. **WHEEL BASE**—120 inches. **TIRES**—36-inch by 4 1-2 inch Hartford or Morgan & Wright; demountable rims. **SPRINGS**—Front, semi-elliptical. Rear, three-quarter platform. **FINISH**—Cadillac bodywork throughout, including wheels; light striking nickel trimmings. **STANDARD EQUIPMENT**—Cadillac mohair top wind shield, Delco patented electrical system embodying automatic cranking device, electric lights and ignition. Automatic spark advance. Also Delco distributor ignition system. Gray & Lucas lamps, especially designed for Cadillac cars, black enamel with nickel trimmings; two headlights; two side lights, tail light; Illum gasoline gauge on dash; horn; full foot pad in torque; robe rail; the trunk, set of tools, including pump and tire repair kit, extra nut in all tonneau except closed cars. Speedometer, Warner, with electric light.

### STYLES AND PRICES

## ELECTRIFICATION IS INCREASING IN FIELD

Many West Side Concerns  
Are Installing Motors  
to Operate Wells

TAFT, Sept. 19. — The electrification of West Side oil leases continues unabated with the San Joaquin Light & Power Company daily starting up for the installation of both pumping and drilling motors. The low cost of pumping with electricity compared with the many new devices to overcome the necessity of chucking pulleys, to change the motor from slow to fast work has made it a very popular method to see the many benefits to be derived.

The Indian and Colonial Development Company, under the supervision of L. P. Gault, has been using electricity for the pumping of wells. The use of this method is thoroughly consistent with the handling of the resilient water. The new type motors have been attracting the greater part of the field attention and demonstrating his belief that they are destined to be the running pumpers. Superintendent Gault has ordered fifteen of the latest model general electric pumps. On next Monday the Midway Pacific Oil Company will install a pumping motor on its No. 1 well on section 24, 31-22. This will be an experiment and if it is a success in this territory the No. 2 well will be similarly equipped as soon as it is brought in. On section 23, 31-22, the Dome Oil Company with one successful pumping motor running, has contracted for two more. With four motors now installed the Traders Oil Company on section 25, 32-23, is installing a pump. The Indian and Colonial Development Company is also among those adopting electricity, six pumping motors being placed on the section 14, 31-23 property.

At the Howard Oil Company place McKittrick a general electric drilling motor has been erected that is being used to determine whether the success of the Howard Petroleum Company with drilling motors will be the same in this territory.

## OIL COMPANIES PLAN PROTEST TO NEW LAW

Measure Works Injustice;  
Internal Revenue Man  
Comes in October

LOS ANGELES, Sept. 19. — Claude L. Parker, collector of internal revenue for the Sixth district, has received a communication from the Commissioner of Internal Revenue Royal L. Church at Washington advising him that the commissioner, accompanied by L. P. Spear, chief of the corporation tax division of the government, will reach Los Angeles Saturday, October 19, by reason of urgent business made by the oil corporations of California that they be permitted to present to the department objections to the present regulations in force governing the manner in which corporations must make their reports of annual net income under the corporation tax law of August, 1909.

Witnesses representing the great oil companies of Southern California will be called and examined, and the hearing may extend over a period of several weeks. The question of valuation and depreciation is involved and it is said the methods prescribed by the department are extremely unsatisfactory in this regard. The law requires that the report to the government, based upon valuation and depreciation, must not vary from that to the stockholders, and the companies claim that this is an injustice owing to the great possibilities of fluctuations in production.

**TO VISIT PRINCIPAL FIELDS**  
Collector Parker has arranged to conduct the first meeting October 1. While the Washington officials are here, they will visit all the principal oil fields of this section, making a careful study of the situation, so that an equitable adjustment may be reached as expeditiously as possible.

The government's income tax law has been the source of a large annual revenue since it became effective. It makes it compulsory for all corporations, with a net income of more than \$5,000 annually to pay a tax of one per cent on their net income. More than 1200 corporations are affected by the law in this district.

## BRIEF OIL NOTES OF MIDWAY FIELD

TAFT, Sept. 19. — The Midway Transportation company has contracted to haul four carloads of fence material to the Coyote Valley, 45 miles from Taft, where the big 100,000-acre Caliente ranch is to be fenced. The Indian and Colonial Development Company has installed fifteen new type General Electric pumping motors on section 22, 32-23.

Big builders yesterday started the erection of a new rig for the Midway Premier Oil Company on section 3, 31-22. L. P. Gault, of Fresno, is in charge of the contract. Superintendent Johnson, of the Pyramid Oil Company, who has had perhaps more bad luck than any other official in the West Side fields, has at last got a well in the sand with excellent indications of a good flow. The well in the No. 2, which was perforated yesterday at a depth of 140 feet. The hole is now being bled out, with all evidences that another day will see the well on the beam.

## ERECTING RIG ON MARICOPA 6 WELL

TAFT, Sept. 19. — The wreckage over the rig on the lease of the Maricopa 6 Oil Company, which was pulled down several days ago, has been cleared away and a new derrick is being erected. The well has been one of the best in this part of the field, but has been off of the producing list for some time while it was being cleaned out. It is within 200 feet of the famous Lakeview gusher. It is on section 36, 12-23.

Fruit Pickers' Tally Taps at Republican Job Printing Office

## SESPE CONSOLIDATED PLANS BIG REFINERY

Will Be Erected in Ventura  
District at Cost of  
Over \$3,000

VENTURA, Sept. 19. — A refinery to cost between \$200,000 and \$250,000 is planned by the Sespe Consolidated Oil Company in the Sespe canyon in this district. The purpose is to refine the heavy oil which the company is now securing from three of its wells, and it is now expected that the refinery will be sufficiently large to handle the output of the surrounding operators.

The Sespe Consolidated is securing very heavy oil for the Ventura district, the gravity being about 12 to 14 degrees, with about 75 per cent of asphalt. Most of the production is sold for road oil.

The company is an outgrowth of the old Big Sespe Oil Company, and was formed early this year. It has well No. 2 down to production sand. The well is now being underreamed preparatory to hauling a casing. As soon as it is finished the intention of the operators is to increase the production in several of the wells which were not drilled deep enough, and also to start a new well.

## OIL IS LOCATED BY FREAKISH WORK OF NEVADA EARTHQUAKE

RENO, Nev., Sept. 19. — The earthquake which visited Reno for the first time in its history, is responsible for the discovery of oil and gas found in a number of wells in Nevada, and has led many people to believe that there will be the site of producing oil wells in a short time. It is believed that the stratum of oil was sealed by the earth disturbance, and that the oil has just made its appearance. Many of the wells in the city have been thickly coated with oil for several days, and an odor of gas several feet from them.

## KERN FIELD SUPPLIES ELECTRICITY AND GAS

Southland Looks to Central  
California for Power  
and Light

BAKERSFIELD, Sept. 19. — While the building on of the natural gas supply of the Kern Vista Hills for Los Angeles and Southern California, Kern County, is being developed as a supplier of a needed commodity for the densely populated part of the state. For the past five years the big Edison Electric Company's plant has been generating tons of incandescent lights of power which are carried 150 miles over steel towers and cables to Southern California. A greater part of the Southern California electric system is supplied from this plant. Besides the Edison plant, the Kern river power company also has a big plant on the upper Kern river which furnishes the water power for the running of the dynamoes of many thousands of homes.

Natural gas from the Kern Vista Hills is plentiful. The supply available to the Midway Gas Company, which has the southern California field, is estimated at billions of cubic feet. Wells have been drilled which will supply several times as much daily as can be crowded through the main line, which has just been completed to the Los Angeles suburbs, a distance of 125 miles.

The gas company is drilling more wells, but will need for the present only 25,000,000 to 35,000,000 cubic feet daily to supply the demand. The gas will be available for Los Angeles before it is said, late in the fall.

## PECULIAR SAND IS FOUND IN DRILLING

COALINGA, Sept. 19. — In drilling for the petroleum sand recently struck on the section, the Standard Oil company on the west line of section 25 encountered a peculiar sand at 2670 feet from which a production of 130 barrels was secured by pumping for 14 hours. The well was finished in 31-4 inch casing and it was believed to be in the petroleum sand, but when the oil was brought to the surface by the pump it was found to be of a peculiar heavy character, ranging from 11.5 gravity, and very much unlike the petroleum sand secured at approximately the same depth a short distance away.

Considerable controversy has arisen over the oil, some saying that it is of petroleum base and others believing it to be asphalt. The well sanding up and the casing was pulled yesterday. It is now under a process of cleaning.

## MONSOON TO MOVE RIG TO CHEROKEE

Elk Hills Property Abandoned and  
Equipment Will Be Used Upon  
Property Recently Bought

TAFT, Sept. 19. — The old Monsoon Lease in the Elk Hills, where a determined effort was made to get oil, is now being abandoned and the dry hole given over to the desert.

## ROYAL DUTCH CO. MAY FIGHT STANDARD OIL

Is Transporting Oil From  
East Indian Field; Interest Is Aroused

LOS ANGELES, Sept. 19. — The importation of gasoline into this country by the Shell-Royal Dutch combine is arousing interest here from the fact that it may become a direct competitor of the Standard in that branch of the business. Its coming is being watched with greater interest than any event that has happened in the oil world in many years. The situation is that the Royal Dutch will not adopt such a course because the consumption of gasoline is too large. On the other hand there are those who think that the Royal Dutch—because of the large supply of the product which it controls and because it is a great competitor of the Standard in all sections of the world—will not neglect the opportunity of opening new here on the big company.

The Shell-Royal company is bringing the product of the East Indian mines to this country at a cost of 3 to 3.1-2 cents lower per gallon than the railroad rate from the east, and when the Panama canal is opened the cost will doubtless be still lower. Although this is only a small item, it would nevertheless become of considerable importance should the company decide to wage war with the Standard in the gasoline business. The opinion of those familiar with the situation is that the Royal Dutch will not adopt such a course because the consumption of gasoline is too large. On the other hand there are those who think that the Royal Dutch—because of the large supply of the product which it controls and because it is a great competitor of the Standard in all sections of the world—will not neglect the opportunity of opening new here on the big company.

# Grand Special Announcement!

## A Limited Number of Lots in Del Monte Heights

# \$15 To Be Sold For \$15

A Lot

## \$5 Down and \$5 a Month

### Every Lot Actually Worth From \$50 to \$150

We want to build a pleasure resort on our lake in Del Monte Heights, which will greatly benefit the town. In order to raise the money in the shortest time and to stimulate interest in this splendid property we are going to sell lots at the special price of \$15. And you have to pay only \$5 down at that, the remaining payments being made \$5 each for two months. These lots are situated on an elevation with a beautiful view, bracing climate, railroad and electric line nearby, etc. If you have ever wanted to own your own summer home at the coast, now is your opportunity. There isn't a prettier place along the entire coast. And you will never again have such an opportunity to buy lots. Now is the time. Don't delay or you will lose this, your only opportunity.

## We Will Buy Your Lot Back Again in One Year at an Advance of 10%

### Never Again In the History of Monterey Will You Be Able To Purchase Lots at Such Fabulously Low Prices

Never again will you be able to buy such choice lots with a beautiful marine and mountain view with railroad connections to Pacific Grove and Monterey at such low prices.

Never again will such an opportunity be open to you. We want to raise a certain sum of money within a very short time so that we can make certain improvements. That is the only reason why you have this opportunity. Grasp it at once.

### An Unprecedented Offer

This is an unprecedented offer. You can not lose. You are certain to gain. Your money is ready for you if you want it back at the end of the year and with 10 per cent added. Examine our references, send for our literature, and convince yourself of what a safe and unusual opportunity this one is.

## We Are Devoting Special Attention

to washing cars, also to cleaning engines and transmissions with distillate under pressure, day or night.

Washing a car does not mean only the use of a hose, too much soap and a rub with a chamois. When we have finished with your car your top has been washed off, not brushed off, your car has been washed by hand from top to bottom and from front to back; the inside cleaned thoroughly and the metal parts properly polished.

This takes time, the know-how and proper facilities. We are not stingy with the first and we have the last two and use them.

You owe it to the appearance of your car to try us once, at least.

Phone for appointment and avoid waiting
